100 Series Seating

The Science of Comfort

Numerous studies have shown that the conventional office chair is one of the largest contributors to physical discomfort and reduced productivity in the modern office.

Synchro-Tilt

15°

100 Series

Conventional Chair

100 Series' uniquely contoured seat pan improves blood flow and reduces discomfort by distributing weight more evenly illustrated by the thermal images above.

100 Series

Conventional Chair

100 Series' flexible backrest conforms to the spine and provides critical support in the lumbar region. The contoured seat cushion and waterfall edge improves blood flow, and the synchro-tilt mechanism helps maintain the correct posture through a full range of motion.

All the Right Moves

100 Series incorporates all the adjustable features usually reserved for much more expensive chairs.

2"

Adjustable Arms

The arms are equipped with an easily adjustable ratchet mechanism that provides 2 inches of vertical adjustment. The armrests are also gently contoured to provide superior arm support in task intensive applications.

Synchro-Tilt

State of the art synchro-tilt provides adjustable tension resistance, pneumatic seat height adjustment and multi-position tilt-lock control in one easy to adjust mechanism.

Backrest

Engineered plastic backrest is incredibly durable and maintains flexibility through a full range of motion for maximum support and comfort.

Headrest

5 position headrest also adjusts 15 degrees to accommodate even the tallest user.

Base

5 star base is available in lightweight reinforced plastic or elegant polished aluminum and comes with urethane casters for effortless operation.

Presto Change

100 Series seat and back cushions are designed with special fasteners that allow for quick and easy removal and replacement of the seat and back cushions without tools.
